Viega

THE PURSUIT OF QUALITY,
SINCE 1899.

Advanced technology

ENGINEERED IN GERMANY.

Viega was founded in 1899, when they began by making beer taps for local taverns in Attendorn, Germany. Since then, the company has grown to become famous around the world for engineering superiority and technology, exporting to 75 countries. Viegas bathroom flush plate design range combines the latest European style with the highest quality standards and dependability.

A perfect match

COLOUR YOUR WORLD.

There is no need for an architect's or designer's ideas to be limited – a number of Visign flush plate models can be perfectly coordinated with any bathroom colour scheme. This includes any solid colour, from the glossiest of cherry reds to the mattest of matt blacks – let your imagination run free.

A number of metallic special colours are available. You can also order special colours such as gold-plated glossy or matt, polished red gold, brush gold optic, black chrome, copper and brass.

Special colour matching is available on the following ranges:

- Visign for Style 10
- Visign for Style 11
- Visign for Style 12
- Visign for Style 13
- Visign for Style 14
- Visign for More 100
- Visign for More 101

A gentle wave of the hand is all it takes to activate. No touching makes it more hygienic and leaves no fingerprints.

Visign for Style Sensitive has
luminescent glow-in-the-dark controls
for nighttime navigation.

Hygienic, fingerprint-free

VISIGN FOR STYLE SENSITIVE.

Look to the future with the Visign for Style Sensitive range. Infrared technology allows a no-touch, no-fingerprints design, operated by a simple wave of the hand for total hygiene (for small or large flush). The Visign for Style Sensitive range offers a completely smooth wall surface, with no protruding buttons and a choice of cool-as-ice finishes to add a hint of lightness and sparkle.

VISIGN FOR MORE

Form and function by studio Artefakt

INTRODUCING THE VISIGN FOR MORE RANGE.

Renowned design studio Artefakt created the Visign for More flush plate range designed to enhance the ambience of any bathroom. Intelligent style, state-of-the-art technology, combined with high quality materials, such as metal and glass, are the ultimate expression of form and function.

VISIGN FOR MORE 100.

A low profile and smooth, flat surface lends a sleek, unobtrusive look to the Viega for More 100 range. Just a light press on the panel gently triggers the flush, thanks to the unique Bowden-cable operation.

- Rear cover plate can be flush-mounted with the surface
- Uses Bowden-cable for smooth dual-flush operation

VISIGN FOR MORE 101.

The essence of simple elegance and subtle operation, the Visign for More 101 range brings distinction to any bathroom. The upper and lower panels control the large and small flush volumes, working effortlessly thanks to Bowden-cable technology.

- Twin panel operation
- Smooth Bowden-cable flush control

VISIGN FOR MORE 104.

A striking example of appealing, purist design principles at work. The discreet operation of the slimline control panel of the Viega for More 104 range is as efficient as it is functional. More 104 is ideal for chrome plated finishes, due to the slim actuation button design minimising finger prints.

- Can be flush-mounted if required
- Smooth Bowden-cable dual-flush operation

VISIGN FOR MORE 105.

The beauty is in the modern, soft geometric design. Visign for More 105 features curved edges and high-grade, precisely processed materials. With a wide range of colours and finishes available, this distinctive plate fits well into any bathroom.

- Smooth Bowden-cable dual-flush operation

VISIGN FOR STYLE

A gentle touch of magic

INTRODUCING THE VISIGN FOR STYLE RANGE.

Derived from the Greek term, haptikos – the sense of touch – the haptic feedback of the Visign for Style control functions were designed from the outset to provide a satisfying feel of quality in daily use. Classic aesthetics, fine engineering and superior tactile feedback set this stylish range apart from the rest.

PURE DESIGN, BY VISIGN.

When the bathroom design aesthetic is pared-back, clean and uncluttered, Visign meets those objectives with sophisticated functionality. The Visign for Style 12 model is a perfect example of technical excellence in it's purest form.

VISIGN FOR STYLE 10.

The Visign for Style 10 range is the perfect example of simplicity and the application of haptic design principles. Two subtly different curved actuating buttons deliver a sensual touch to the dual-volume flush technology.

- Can be mounted flush with the surface
- Mechanical dual-volume flush operation

VISIGN FOR FOR STYLE 11.

A case study in functional, contemporary form, the Visign for Style 11 range has a clearly defined surface design that flows gently into the soft curves of the actuating button.

- Can be mounted flush with your tiles
- Also available with superior Bowden-cable dual-flush

VISIGN FOR STYLE 12.

Free from unnecessary adornment and above any trend – this is Visign for Style 12. The flush plate is available in different materials and finishes to provide unlimited freedom for any bathroom design concept.

- Twin panel operation
- Smooth Bowden-cable flush operation
- Can be flush-mounted

Can also tile into the frame with either stone or tiles for a seamless look.

VISIGN FOR STYLE 13.

The Visign for Style 13 range is a classically minimal concept, actuated by a two-part pressure point to control the single/dual flush button. Proof that clever solutions are often the most simple.

- Can be flush-mounted
- Mechanical dual-flush operation

VISIGN FOR STYLE 14.

A harder contour line is distinctive and visually appealing, yet extremely user-friendly. The Visign for Style 14 range features a clear emphasis on the actuation field whilst setting a focus in your bathroom.

- Can be level-mounted
- Mechanical dual-flush technology

On the level

FLUSH-MOUNTED.

A beautiful bathroom doesn't require embellishment. Both the Visign for More and Visign for Style range models (all square-edge designs) can be installed to provide a smooth, seamless look, completely recessed and flush with your bathroom tiles.

This is made possible by an ingenious installation frame, which can be adjusted to adapt to the thickness of the tiles. With stone or marble, the Visign for Style 12 offers a flush-mount installation feature for minimal intrusion into the chosen material.

Cleaning accessory for Visign for More Style 10.

This model features a special chute that allows access to add a cleaning tablet to the cistern. The actuating plate is held by magnets – this allows easy opening and closing to ensure continuous hygiene.
